**TouchIT Board Lite**

TUCH-TBL87

Touch-based interactive multitouch 87"(16:10) whiteboard with a low glare enamel steel surface. Utilizing the latest in infrared touch technology, the TouchIT Board Lite enables full control of your computer at the board. Touch for left click, touch and hold for right click - full mouse functionality at the touch of a finger. Annotate, Control, Record - all are possible with the WizTeach or Oktopus Educational Content, software, included free with the TouchIT Board Lite. The enamel surface means the TouchIT Board Lite is a true dual functionality, interactive whiteboard, suitable for use with dry-erase markers. Supplied with 2 Styluses, WizTeach/Oktopus Software, Wall Mount Brackets, Instruction Manual, Warranty Card.
