LISO Evoko Liso Manager is a turnkey solution that integrates seamlessly with the existing e-mail server. No additional software is required. Installation on the server is as simple as adding a new employee to the network. Secure, reliable and easy to manage. Bright, smooth look and graphical user interface. You can even search for other rooms and book them on any Evoko Liso within the network. Built in proximity sensor - changes information on the display when someone walks up to it.

MINTO The Evoko Minto conference phone connects via Bluetooth, USB or 3,5mm jack. Thanks to the patented sound technology in Minto it will give you an outstanding sound quality in everything from a small huddle room to meeting rooms for 20 people or open lounge areas. EVOKO GROUPIE included at no charge.

GROUPIE The wide angle illumination lens Evoko Groupie – Puts you in the picture. Attach to any device, sticks easily on the existing camera thereby brightening and lighting a dark room and enlarging the field of view. Ultra wide angle lens with 151 degrees angle of vision Groupie ensures that everyone is clearly visible.
